INTRODUCTION

Hi! I am Misha Bablani in grade5. I am having 3 years of experience in coding. Now I am in the AI wizard level 1. I am interested in learning more about coding.

>>>

MY HOBBIES

ART

Art is a calming activity for me.

ACTING

Acting helps me act like new people.

CODING

Coding is like leaving all my troubles behind and jumping into virtual world.

02.

ABOUT MY PROJECT

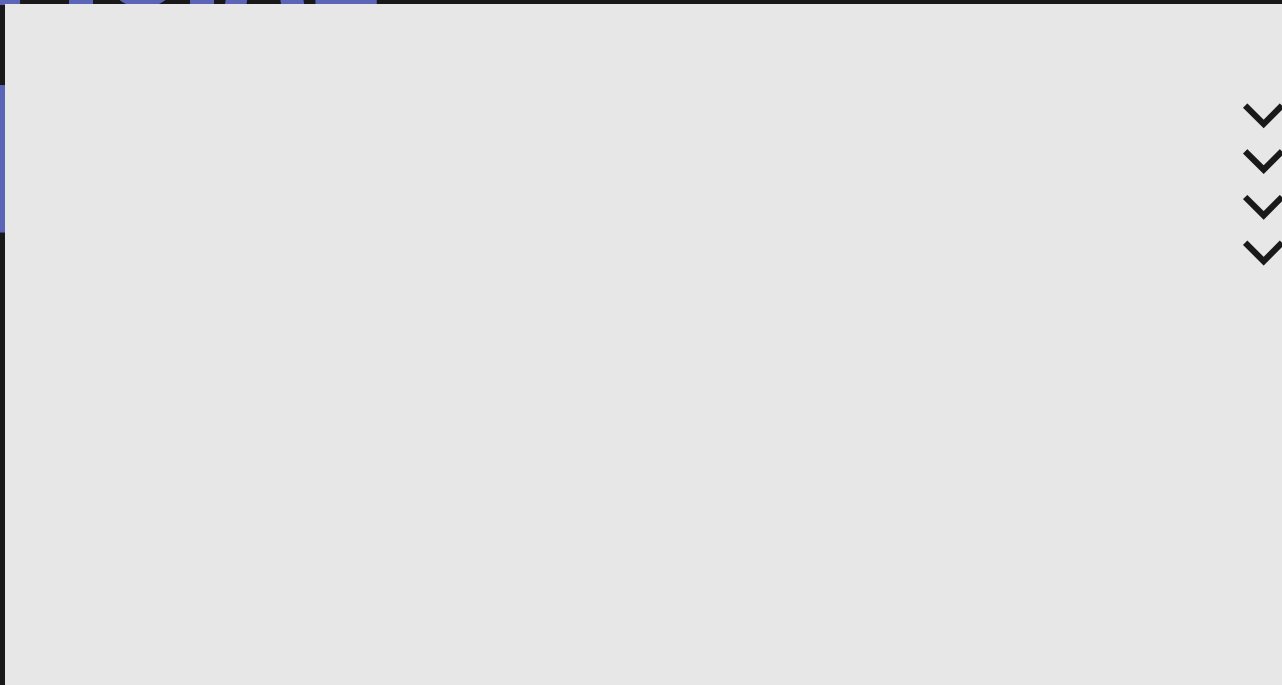

ABOUT THE PROJECT

My project that I have chosen is the adventure game using pose recognition. This project is all about trying to escape the island you are stuck in. I chose this project as I thought it would be fun to make and will also solve a problem. When people that have computers like me make a game that are having controls which are usually W,A,S,D keys or the arrow keys, the people on ipads, tablets, smartwatches and phones will not be able to play the game as they don't have a built-in keyboard. So, I decided to make a game that should let both touch screen and keyboard users to play the game.
